Description

2023 Seawind 1160 Lite – Like New • Diesel Powered • Tariffs Already Paid • Turn-Key Cruising

If you have wanted a new Seawind but did not want to build new from the factory, this listing might be just what you've been waiting for!

This exceptional **2023 Seawind 1160 Lite** is one of those rare opportunities that simply does not come along often. Offered in **like-new condition** and loaded with premium factory options and thoughtful upgrades, this yacht has seen remarkably light use. In fact, many of the onboard appliances have **never been used**, giving the next owner the opportunity to enjoy a vessel that still feels fresh from the factory.

Unlike most 1160 Lite models on the market, this yacht is equipped with **reliable inboard diesel engines** rather than outboards. The result is exceptional fuel economy, increased range, simplified weight distribution, and the confidence that comes with proven diesel propulsion for serious coastal cruising and offshore blue water adventures.

Even better, this yacht has already been **properly imported into the United States**, and **all import duties have been paid**. In today's market, that represents a significant financial advantage, allowing the next owner to avoid the uncertainty and additional expense of current import tariffs.

From the moment you step aboard, it is obvious this yacht has been cared for to an exceptionally high standard. Every surface reflects meticulous ownership, while the extensive equipment list means there is virtually nothing left to add. Simply provision the boat, cast off the lines, and begin your next adventure.

Whether your dream is cruising the Florida coast, exploring the Bahamas, living aboard, or embarking on extended coastal passages, this Seawind is ready today.

Highlights

- Summer 2026 bottom paint and sail drive service
- Inboard diesel propulsion
- Like-new condition throughout
- Numerous factory options and premium upgrades
- Many appliances have never been used
- Import duties already paid—avoid today's import tariff costs
- Turn-key and ready for immediate cruising
- Located in St. Petersburg, Florida

This is more than just another late-model catamaran. It is an opportunity to own one of the cleanest, best-equipped Seawind 1160 Lite yachts available—without the delays, uncertainty, and added costs often associated with purchasing a new imported vessel.

If you've been waiting for the right Seawind, your search may very well end here.
